Course Analysis for NUMN27 Numerical Analysis: Seminar, Autumn 2025

Course Information

Lecturer: Philipp Birken
Teaching assistants:

Number of students:
7 newly registered and 1 re-registered.
No students answered the course evaluation.

Examination

Written report: 7 students passed.
Oral presentation: 7 students passed.
Peer review: 6 students passed.

Final grades:
In all, 6 students, including 0 re-registered students, have got their final grade.
6 passed.

Course Evaluation

Teachers' comments:

The course had

- 1 Lecture per week by students
- One written report
- Peer Review of the report

The students were given a topic for their lectures before the beginning of the term and then prepared a lecture on it.

Changes from the previous course realisation:

The course was moved from HT1 to HT2, which worked well in my opinion. Otherwise, some new topics were introduced and some old ones removed.

Suggestions for the next course realisation:

We will adjust topics, as every year.
